

## RESEALABLE FINGER LIFT TAPE

**Suitable for multiple usages for opening and reclosing a package, having a printed non-adhesive area called "finger lift", for easy lifting a non-sticky part by a finger.**

- Very accurate printing alongside the adhesive part.
- Various lengths of the rolls are possible.
- Can be fully customized according to requirements: color, design, width of adhesive and non-adhesive zones.
- UV-resistant.
- Solvent free.
- No damage to a pack.
- BOPP film thickness 30-35-50μ.
