Every pet should live a comfortable life. A life without pain, stress and without being bugged by fleas, ticks, and flies. Solano's products range from collars to 'spot on' and 'spray it', helping pet owners treat their best friends to the comfort they deserve.

Solano
PET CARE

Company background

Solano is a family-owned company, founded in 2012 with headquarters in the north of Israel that combines productions and R&D. Thanks to its patented technology that's developed in-house, Solano is the leading Israeli pet care product manufacturer today. And they're on their way to becoming the worldwide leader in parasite control solutions for pets.

Product range

Solano offers a complete range of natural calming line collars and spot on, natural skin and fur care for dogs and cats, CBD collars and a full range of chemical and natural flea & tick control.

All products have exclusive chemistry and style which insures the best efficacy and safety together with a stylish and comfort design. The uniquely designed collars, for example, give pets an elegant look, while guaranteeing protection for up to six months.

Private label

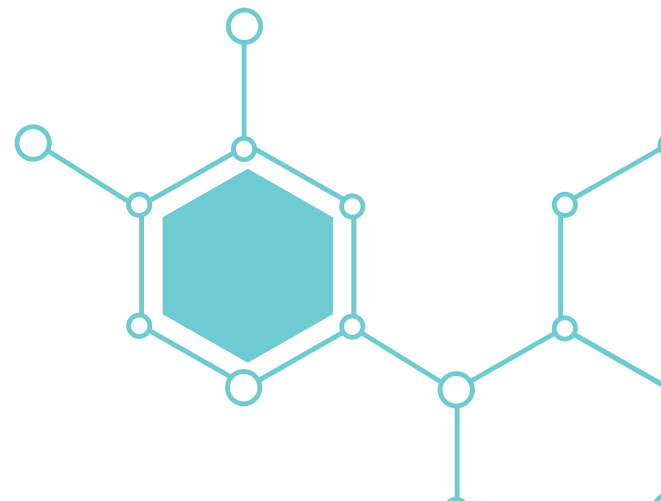

Solano not only offers its extensive line of products under its own brand, it also offers a private label option for partners across the world.

Their goal is to help customers stand out from the competition with a full range of products that help differentiate themselves from the competition.

Founded on values of innovation, efficiency and the best product quality, Solano has set itself the goal of making products that are accessible worldwide, while listening to its customers, employees and partners to identify the needs for products.

Flea & Tick Control

The best flea & tick collar
for dogs and cats.
Based on Dinotefuran
& Flumethrin

Novo Collar for dogs and cats provide 6 months of continues flea and tick prevention.

Unlike other products, which only work after your cat or dog has been bitten or stung, Novo kills parasites before they need to bite your pet. It works by slow release patented technology, releasing low doses via the polymer material of the collar (does not contain PVC and Heavy Metal). This ensures long-lasting efficacy and eliminates the need for more frequent top up treatments.

Novo collar insure high safety for dogs and cats.

Novo Collar is waterproof and no need to remove before bathing your pet.

Novo collar It is vet recommended flea and tick prevention.

At first sight, Novo might look like another dog and cat collar, but there is a big difference. The collar based on Dinotefuran and Flumethrin, and the polymer matrix is totally different – as a result, Novo is more effective then any other collar in the market.

Soltif Home

The most efficient Spot On
for dogs against Ticks and Fleas

More Efficient

Based on a new formulation of a 3rd generation insecticides that parasites didn't develop resistivity.

Dinotefuran

3rd generation insecticide, very effective against fleas and gives your dog the perfect protection at all times.

Kills all life stage of fleas include eggs and larvae.

Flumethrin

A very efficient and safe insecticide against ticks.

Kills parasite such as ticks, flies and mosquitoes by knock out action, kills through contact, fleas die before biting.

The combination of these two insecticides gives your dog full protection from fleas, ticks, flies and mosquitoes.

Faster Action

The active ingredients spread in all dog's body from head to tail and kill all parasites in 6 hours.

GoFlex

Hip & Joint Mobility Collar

GoFlex 30 day active collar for dogs and cats.

One of five dogs experience joint issues associated with osteoarthritis (OA) in their lifetimes, resulting in pain and possible mobility challenges.

In cats figures are even higher.

Glucosamine/Chondroitin are the most common supplement used in OA cases.

Joints are protected by the articular cartilage which acts as a shock absorber. In the case of joint discomfort, this cartilage is not functioning properly and less effective in protecting the joints, contributing to stiffness, pain, and decreased mobility.

GoFlex Collar has a powerful combination of Glucosamine/Chondroitin, MSM that are naturally found in pet's body and are important for the maintenance of healthy joints.

GoFlex Collar effective for

- Arthritis and Rheumatoid arthritis pain relief
- Joints inflammation
- Muscles Soreness
- Antioxidant

Control Release technology

slowly releases the active ingredients into the pet's body.

Water Resistant

No need to remove the collar before washing your pet.

Long Lasting

effective up to 30 days
