

ISATIS SPRAY

(Liquid)

HEALTH BY NATURE

ISATIS, a herbs formula in a spray, is based on a Chinese herbs composition called CHUAN XIN LIAN KANG YAN PIAN. It is named after the two main herbs in it (the "emperors"). Both are different parts (root and leaves) of the same herbs called ISATIS TINCTORIA. According to the Chinese medical literature, these herbs are intended for conditions of "heat and toxicity" - a traditional term that refers to the feeling of "burning and burning" which in some cases feels just like "thorn in the throat".
