

SILYBUM MARIANUM (Tablets)

HEALTH BY NATURE

60 HERBAL TABLETS

Silybun seeds have been used in traditional medicine around the world to support detoxification processes for about 2000 years. The main researched ingredient in the plant is the silymarin compound (and the silybine it contains) - a particularly significant antioxidant, which has been tested in dozens of scientific studies in recent years in the context of the potential for protection against exposure to various toxins (such as drugs, alcohol, chemicals).

- The product is based on research-tested technological principles, which have indicated improved absorption (approximately 4.5 times) compared to phospholipid-free extracts [1]
- An extremely economical format that allows for a reduced dose and maximum convenience in taking
- The raw material has undergone a series of rigorous quality tests in accordance with the most stringent standards to ensure the identification, quality and cleanliness of the raw material.
- No preservatives, added sugar or artificial sweeteners
- vegan
- Kosher Badatz signed by Sofer Bnei Brak
